

KALE FANS AIRFREE

AIRFREE is an energy-saving wall-mounted fan with a diameter of 2 meters and a wind delivery distance of more than 40 meters, which can even cover an entire basketball court. It uses a high-efficiency PMSM motor and is suitable for various environments such as industry, commerce, and animal husbandry, perfectly solving the problem of warehouse air circulation or keeping livestock cool.

KEY FEATURES

▶ Flexible installation methods

Optional ceiling, beam, and column installation

▶ Long Air Distance

AIRFREE has an ultra-long air supply distance, with an effective wind range that extends beyond 40m.

▶ Maintenance Free

PMSM technology not only eliminates the need for regular maintenance but also ensures a longer lifespan for your fan.

▶ Ultra Quiet

With PMSM technology, AIRFREE perfectly solves the motor gear friction and reduces the noise level to below 43dB, which is very quiet.

▶ Variable Speed Control

Equipped with a variable speed control feature, allowing users to adjust the airflow intensity according to their personal preferences and comfort levels.

▶ Waterproof & Dustproof

AIRFREE is waterproof and dustproof that can operate normally in rainy and humid environments.
